EXPECTED TIMETABLE

Notes:

- (1) The H Share Offer is made on Wednesday, 19 August, 2020, the date of posting of the Composite Document, and is capable of being accepted on and from this date.
- (2) The proxy form should be deposited with the Registrar, Tricor Abacus Limited at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong as soon as possible and in any event not less than twenty-four (24) hours before the time appointed for the Extraordinary General Meeting and the H Share Class Meeting or the time appointed for any adjournment thereof, in order to be valid. Completion and return of a proxy form for the Extraordinary General Meeting and/or the H Share Class Meeting will not preclude an Independent H Shareholder from attending the Extraordinary General Meeting and/or the H Share Class Meeting and, as the case may be, voting in person if he/she/it so wishes. In such event, the returned proxy form will be deemed to have been revoked.
- (3) It is assumed that the H Share Offer has not become unconditional as to acceptances or in all respects prior to the First Closing Date. In accordance with the Takeovers Code, the H Share Offer must initially be opened for acceptance for at least 21 days following the date on which the Composite Document was posted. Pursuant to Rule 15.5 of the Takeovers Code, except with the consent of the Executive, the H Share Offer may not become or be declared unconditional as to acceptance after 7:00 p.m. on the 60th day after the posting of the Composite Document. As the 60th day after the posting of the Composite Document is Sunday, 18 October 2020, which is not a business day, the First Closing Date is therefore set on the next business day which is Monday, 19 October 2020.
- (4) Unless the H Share Offer has previously become or been declared unconditional, revised or extended, the latest time and date for acceptance of the H Share Offer is 4:00 p.m. on the First Closing Date. Please refer to Appendix I to the Composite Document for additional information on how to accept the H Share Offer.
- (5) Pursuant to Rule 20.1 of the Takeovers Code, settlement in cash in respect of acceptances of the H Share Offer will be made within seven (7) business days (as defined under the Takeovers Code) of the later of the date on which the H Share Offer has become or is declared unconditional and the date on which the H Shares are tendered for acceptance of the H Share Offer. Relevant documents of title must be received by the Registrar to render each acceptance of the H Share Offer complete and valid. Remittances in respect of the H Shares tendered for acceptance and taken up by the Offeror under the H Share Offer (after, if applicable, deducting the seller's ad valorem stamp duty arising therefrom) will be posted to the H Shareholders by ordinary post at their own risk.
- (6) Pursuant to Rule 15.5 of the Takeovers Code, except with the consent of the Executive, the H Share Offer (whether revised or not) may not become or be declared unconditional as to acceptances after 7:00 p.m. on the 60th date after the Composite Document was posted. As the 60th day after the posting of the Composite Document is Sunday, 18 October 2020, which is not a business day, the First Closing Date is therefore set on the next business day which is Monday, 19 October 2020. The Offeror may further apply to extend the latest date to declare the H Share Offer unconditional as to acceptances beyond Monday, 19 October 2020 and the Executive may or may not grant such consent.
- (7) In compliance with the note to Rule 2.2 and Rule 15.3 of the Takeovers Code, where the H Share Offer becomes or is declared unconditional in all respects, it should remain open for acceptance for not less than 28 days thereafter. At least 14 days' notice in writing must be given before the H Share Offer is closed to the H Shareholders who have not accepted the H Share Offer if the announcement to extend the H Share Offer does not state the next closing date. The Offeror reserves the right to extend the H Share Offer beyond this 28-day period.

EXPECTED TIMETABLE

- (8) It is currently expected that the voluntary withdrawal of listing of the H Shares from the Stock Exchange would happen at 4:00 p.m. on Tuesday, 17 November 2020, subject to the satisfaction of any conditions for delisting such securities from the Stock Exchange, and receipt of any regulatory approvals required for such delisting.
- (9) Beneficial owners of the H Shares who hold their H Shares in CCASS directly as an investor participant or indirectly via a broker or custodian participant should note the timing requirements for causing instructions to be made to CCASS in accordance with the General Rules of CCASS and CCASS Operational Procedures.
- (10) The latest time and date for acceptance of the H Share Offer, the latest date for posting of remittances for the amounts due under the H Share Offer in respect of valid acceptances, the last day of trading of H Shares and voluntary withdrawal of listing of the H Shares will not take effect if there is a tropical cyclone warning signal number 8 above, or a “black” rainstorm warning, in force in Hong Kong at any local time between 12:00 noon and 4:00 p.m. on the such relevant date. Instead, such relevant date will be rescheduled to the same time on the following Business Day which does not have either of those warnings in force at any time between 9:00 a.m. and 4:00 p.m.

In the event that you attend and vote at any of the Extraordinary General Meeting and/or the H Share Class Meeting or any adjournment respectively thereof after having deposited the relevant proxy form, that proxy form will be deemed to have been revoked.

8. How do I vote if my H Shares have been lodged with my securities dealer/custodian bank through CCASS, or lodged with my investor participant's account maintained with CCASS?

If your H Share(s) has/have been lodged with your licensed securities dealer (or other registered dealer in securities or custodian bank) through CCASS and you intend to vote at the Extraordinary General Meeting and/or the H Share Class Meeting (as applicable) or attend in person, you should instruct your licensed securities dealer (or other registered dealer in securities or custodian bank) to give instructions to HKSCC Nominees Limited on your behalf on or before the deadline set by HKSCC Nominees Limited. In order to meet the deadline set by HKSCC Nominees Limited, you should check with your licensed securities dealer (or other registered dealer in securities or custodian bank) for the timing on the processing of your instruction, and submit your instruction to your licensed securities dealer (or other registered dealer in securities or custodian bank) as required by them.

If your H Share(s) has/have been lodged with your investor participant's account maintained with CCASS, you should submit your instruction via the CCASS Phone System or CCASS Internet System on or before the deadline set by HKSCC Nominees Limited.

For the avoidance of doubt, your vote will be invalid if you give voting instructions to the Registrar by yourself directly. Therefore, if your H Share(s) has/have been lodged with your licensed securities dealer (or other registered dealer in securities or custodian bank) through CCASS, or lodged with your investor participant's account maintained with CCASS, you must take actions as mentioned above.

Further Terms and general matters relating to the H Share Offer

The H Share Offer is therefore made on the basis that acceptance of the H Share Offer by any person will constitute a warranty by such person or persons to the Offeror that the H Shares acquired under the H Share Offer are sold by such person or persons free from all third party rights, liens, charges, equities, adverse interests and encumbrances whatsoever and together with all rights attaching thereto as at the date of the Rule 3.5 Announcement or subsequently becoming attached to them, and including the right to receive all dividends (whether final or interim) and other distributions, if any, declared, made or paid on or after the date of the Rule 3.5 Announcement.

There are no dividends attaching to the H Shares which are outstanding or in contemplation to be declared as at the Rule 3.5 Announcement and as at the Latest Practicable Date. The Company expects that no dividends attaching to the H Shares will be outstanding or in contemplation to be declared before close of the H Share Offer.

LETTER FROM ICBCI

Hong Kong stamp duty

Seller's ad valorem stamp duty arising in connection with acceptances of the H Share Offer will be payable by each accepting H Shareholder at the rate of 0.1% of (i) the market value of the H Offer Share; or (ii) the consideration payable by the Offeror in respect of the relevant acceptance of the H Share Offer, whichever is higher, and the amount of such duty will be deducted from the cash amount payable by the Offeror to such accepting H Shareholder (where the amount of stamp duty is a fraction of a dollar, the stamp duty will be rounded up to the nearest dollar). The Offeror will pay the buyer's ad valorem stamp duty on its own behalf.

Closing Date of the H Share Offer

The latest time on which the Offeror can declare the H Share Offer unconditional as to acceptances is 7:00 p.m. on the 60th day after the posting of the Composite Document (or such later date to which the Executive may consent). As the 60th day after the posting of the Composite Document is Sunday, 18 October 2020, which is not a business day, the First Closing Date is therefore set on the next business day which is Monday, 19 October 2020. Once all of the Conditions have been satisfied, the H Share Offer will be declared unconditional in all respects and the H Share Offer should remain open for acceptance for at least 28 days in compliance with the note to Rule 2.2 and Rule 15.3 of the Takeovers Code before the H Share Offer is closed in order to allow sufficient time for those H Shareholders who have not initially accepted the H Share Offer to accept the H Share Offer or to process the transfer of their H Shares.

OFFEROR'S INTENTION IN RELATION TO THE GROUP

Business of the Group

The Offeror intends to continue with the existing business of the Group and do not intend to make any material changes to the current business operations of the Group following completion of the H Share Offer. It is also the intention of the Offeror that there will not be any material changes in the management or employees of the Group as a result of the H Share Offer; and after the Delisting, the Company will not seek for listing of its Shares on any other stock exchanges (including the stock exchanges in the PRC).

LETTER FROM ICBCI

Delisting

Upon the H Share Offer becoming unconditional, the Company will make an application for the Delisting in accordance with Rule 6.12 of the Listing Rules. The H Shareholders will be notified by way of an announcement of the dates for the last day for dealing in the H Shares and on which the Delisting will become effective.

No Right of Compulsory Acquisition

The Offeror has no rights under the laws of the PRC and the Articles of Association of the Company to compulsorily acquire the H Shares that are not tendered for acceptance pursuant to the H Share Offer.

The Offeror has applied to the Executive for a waiver from the requirements under Rule 2.2(c) of the Takeovers Code.

Accordingly, the Independent H Shareholders are reminded that if they do not accept the H Share Offer and the H Share Offer subsequently becomes unconditional in all respects and the H Shares are delisted from the Stock Exchange, this will result in the Independent H Shareholders holding securities that are not listed on the Stock Exchange and the liquidity of the H Shares may be severely reduced. In addition, the Company may or may not continue to be subject to the Takeovers Code after the completion of the H Share Offer depending on whether the Company remains as a public company thereafter.

INFORMATION AND PRINCIPAL BUSINESS OF THE OFFEROR

The Offeror was incorporated on 5 February 1997 and is validly existing under the laws of the PRC as a company with limited liability. Its principal business activities include investment holding, development, production and trading of computer and electronic products. The Offeror is held as to 70.5% by Mr. Chen, who is an executive Director, the ultimate controlling shareholder, the chairman and the founder of the Company, and 29.5% by Ms. Wang Rong, the spouse of Mr. Chen. As at the Latest Practicable Date, the directors of the Offeror are Mr. Chen, Ms. Wang Rong and Ms. Chen Xi and the supervisor of the Offeror is Mr. Wang Jiajie.

REASONS FOR AND BENEFITS OF THE H SHARE OFFER AND THE DELISTING

The Company is principally engaged in the research, development, manufacture and distribution of special computer products and the trading of electronic products and accessories. The Company operates its business through two segments: (1) research, development, manufacturing and distribution of special computer products and trading of electronic accessories segment; and (2) sales of development properties segment.

LETTER FROM ICBCI

As stated in the annual report of the Company for the year ended 31 December 2019 (the “**2019 Annual Report**”), the Group’s business and future prospects could be materially affected by certain risks and uncertainties. For example, as the Group is engaged in the development and production of computer, communication and electronic hardware which are technology-intensive and capital-intensive, there is uncertainty as to whether the Group can continue to succeed in research and development and maintain its competitive edge in technology. Furthermore, as stated in the 2019 Annual Report, the outbreak of coronavirus epidemic has caused increase in production cost in Mainland China, delay in supply of materials, production and sales schedule.

As stated in the 2020 Interim Results Announcement, the Group recorded a decrease in turnover by 21.5% and a loss attributable to the owners of the Company of approximately RMB16.3 million. The Group also recorded a fair value loss on investment properties of approximately RMB20.1 million during the first six months of 2020. As stated in the 2020 Interim Results Announcement, as a result of the global spread and the ongoing outbreak of the novel coronavirus epidemic, the Chinese and the global economies experienced different degrees of instability. The decline in business orders from domestic customers, the suspension or slowdown of production and operation activities, and the significant decrease in the demand for automation led to a sluggish special computer market. There are also increasing risks pertaining to the availability of and price rise in import of foreign ICs, which poses relatively serious concerns to the continuous production and technological innovation of the Group’s products.

As stated in the 2020 Interim Results Announcement, looking forward, the Chinese economy and even the world economy will enter into a “new norm” under the epidemic. Under the new opportunities and challenges ahead, the Company have to implement its business plan in a prudent manner. Given such uncertainties to the Group’s prospects and future financial performance, investors may have different expectations and requirements with regard to the return on investment of the Group, which may differ from the development plan of the Group in the long run. The H Share Offer, if completed, will enable the Company to have greater flexibility to make timely investment decisions and to focus on the long term development of the Group.

The Offeror also considers that the Delisting will facilitate business integration between the Offeror and the Company, giving the Offeror more flexibility to support the future business development of the Company without being subject to regulatory restrictions and compliance obligations associated with the related obligations arising from the listing status of the Company on the Stock Exchange. After the Delisting, the relevant listing costs and expenses will also be saved.

LETTER FROM ICBCI

For H Shareholders, the Offeror believes that the H Share Offer provides a compelling opportunity to dispose of their H Shares for the following reasons:

- Premium valuation: the H Share Offer provides an opportunity for H Shareholders to sell their H Shares and receive cash at a price above the prevailing market price. In particular, closing price of the H Shares has never exceeded the H Share Offer Price for two year-time. The H Share Offer Price represented a premium of approximately 105.5% over the last 60 trading days immediately prior to and including the Last Trading Date. Please refer to the sub-section headed “Comparisons of value” under the section headed “THE H SHARE OFFER” for details.
- Certain and immediate value: trading volume in the H Shares has been thin for most of the time during relatively long period, it may be challenging for the H Shareholders to dispose of their H Shares without adversely affecting the market price of the H Shares. The monthly total trading volume of the H Shares (as a percentage to total issued H Shares) during 1 January 2020 to 31 May 2020 ranged from 0.7% to 2.1% only. The H Share Offer presents an opportunity for the H Shareholders to dispose of their H Shares and exit their investment for cash proceeds which may be reinvested in alternative investments with higher quality.
- Avoidance of holding unlisted shares: assuming the H Share Offer will become unconditional, the Company will make an application for the listing of the H Shares to be withdrawn from the Stock Exchange in accordance with Rule 6.12 of the Listing Rules. If the H Shares are delisted from the Stock Exchange, the H Shares will become securities that are not listed or quoted on any stock exchange and the liquidity of the H Shares will be severely reduced.

WARNING

The H Share Offer is conditional upon the satisfaction of the Conditions as described in this Composite Document in all aspects. Accordingly, the H Share Offer may or may not become unconditional and the issue of this Composite Document does not imply that the H Share Offer or the Delisting will be completed. Shareholders and/or potential investors of the Company should therefore exercise caution when dealing in the securities of the Company (including H Shares and any options or rights in respect of them). Persons who are in doubt as to the action they should take should consult their licensed securities dealers or registered institutions in securities, bank managers, solicitors, professional accountants or other professional advisers.

ADDITIONAL INFORMATION

In considering what action to take in connection with the H Share Offer and the Delisting, you should consider your own tax position and, if you are in any doubt, you should consult your professional advisers.

LETTER FROM ICBCI

In making your decision, the Independent H Shareholders must rely on their own examination of the terms of the H Share Offer and the Delisting, including the merits and risks involved. Independent H Shareholders should consult their own professional advisers for professional advice.

You are also urged to read carefully (a) the letter from the Board from pages 21 to 32 of this Composite Document; (b) the letter from the Independent Board Committee from pages 33 to 34 of this Composite Document; (c) the letter from Sorrento Capital from pages 35 to 65 of this Composite Document; (d) the procedures for acceptance of the H Share Offer as set out in Appendix I to this Composite Document from pages I-1 to I-10 and in the accompanying Form of Acceptance; (e) the details for meetings to be convened for approving the Delisting as set out in the section headed “Meetings” in the “Letter from the Board” in this Composite Document; and (f) other information as set out in the appendices to this Composite Document which form part of this Composite Document.

LETTER FROM THE BOARD

REASONS FOR AND BENEFITS OF THE H SHARE OFFER AND THE DELISTING

The Company is principally engaged in the research, development, manufacture and distribution of special computer products and the trading of electronic products and accessories. The Company operates its business through two segments: (1) research, development, manufacturing and distribution of special computer products and trading of electronic accessories segment; and (2) sales of development properties segment.

As stated in the annual report of the Company for the year ended 31 December 2019 (the “**2019 Annual Report**”), the Group’s business and future prospects could be materially affected by certain risks and uncertainties. For example, as the Group is engaged in the development and production of computer, communication and electronic hardware which are technology-intensive and capital-intensive, there is uncertainty as to whether the Group can continue to succeed in research and development and maintain its competitive edge in technology. Furthermore, as stated in the 2019 Annual Report, the outbreak of coronavirus epidemic has caused increase in production cost in Mainland China, delay in supply of materials, production and sales schedule.

As stated in the 2020 Interim Results Announcement, the Group recorded a decrease in turnover by 21.5% and a loss attributable to the owners of the Company of approximately RMB16.3 million. The Group also recorded a fair value loss on investment properties of approximately RMB20.1 million during the first six months of 2020. As stated in the 2020 Interim Results Announcement, as a result of the global spread and the ongoing outbreak of the novel coronavirus epidemic, the Chinese and the global economies experienced different degrees of instability. The decline in business orders from domestic customers, the suspension or slowdown of production and operation activities, and the significant decrease in the demand for automation led to a sluggish special computer market. There are also increasing risks pertaining to the availability of and price rise in import of foreign ICs, which poses relatively serious concerns to the continuous production and technological innovation of the Group’s products.

As stated in the 2020 Interim Results Announcement, looking forward, the Chinese economy and even the world economy will enter into a “new norm” under the epidemic. Under the new opportunities and challenges ahead, the Company have to implement its business plan in a prudent manner. Given such uncertainties to the Group’s prospects and future financial performance, investors may have different expectations and requirements with regard to the return on investment of the Group, which may differ from the development plan of the Group in the long run. The H Share Offer, if completed, will enable the Company to have greater flexibility to make timely investment decisions and to focus on the long term development of the Group.

The Offeror also considers that the Delisting will facilitate business integration between the Offeror and the Company, giving the Offeror more flexibility to support the future business development of the Company without being subject to regulatory restrictions and compliance obligations associated with the related obligations arising from the listing status of the Company on the Stock Exchange. After the Delisting, the relevant listing costs and expenses will also be saved.

LETTER FROM THE BOARD

For H Shareholders, the Offeror believe that the H Share Offer provides a compelling opportunity to dispose of their H Shares for the following reasons:

- Premium valuation: the H Share Offer provides an opportunity for H Shareholders to sell their H Shares and receive cash at a price above the prevailing market price. In particular, closing price of the H Shares has never exceeded the H Share Offer Price for two year-time. The H Share Offer Price represented a premium of approximately 105.5% over the last 60 trading days immediately prior to and including the Last Trading Date. Please refer to the sub-section headed “Comparisons of value” under the section headed “THE H SHARE OFFER” for details.
- Certain and immediate value: trading volume in the H Shares has been thin for most of the time during relatively long period, it may be challenging for the H Shareholders to dispose of their H Shares without adversely affecting the market price of the H Shares. The monthly total trading volume of the H Shares (as a percentage to total issued H Shares) during 1 January 2020 to 31 May 2020 ranged from 0.7% to 2.1% only. The H Share Offer presents an opportunity for the H Shareholders to dispose of their H Shares and exit their investment for cash proceeds which may be reinvested in alternative investments with higher quality.
- Avoidance of holding unlisted shares: assuming the H Share Offer will become unconditional, the Company will make an application for the listing of the H Shares to be withdrawn from the Stock Exchange in accordance with Rule 6.12 of the Listing Rules. If the H Shares are delisted from the Stock Exchange, the H Shares will become securities that are not listed or quoted on any stock exchange and the liquidity of the H Shares will be severely reduced.

WARNING

The H Share Offer is conditional upon the satisfaction of the Conditions as described in this Composite Document in all aspects. Accordingly, the H Share Offer may or may not become unconditional and the issue of this Composite Document does not imply that the H Share Offer or the Delisting will be completed. Shareholders and/or potential investors of the Company should therefore exercise caution when dealing in the securities of the Company (including H Shares and any options or rights in respect of them). Persons who are in doubt as to the action they should take should consult their licensed securities dealers or registered institutions in securities, bank managers, solicitors, professional accountants or other professional advisers.

Voluntary Withdrawal of Listing of the H Shares

The Offeror has no rights under the laws of the PRC and the Articles of the Company to compulsorily acquire the H Shares that are not tendered for acceptance pursuant to the H Share Offer. The Offeror has applied to the Executive for a waiver from the requirements under Rule 2.2(c) of the Takeovers Code, which requires a resolution of the independent shareholders to approve a delisting to be made subject to the offeror(s) being entitled to exercise, and exercising, its/their rights of compulsory acquisition requirements.

LETTER FROM THE BOARD

Upon the H Share Offer becoming unconditional, the Company will make an application for the voluntary withdrawal of the listing of the H Shares on the Stock Exchange in accordance with Rule 6.12 of the Listing Rules. The Offeror does not intend the H Shares to remain listed on the Stock Exchange after the close of the H Share Offer.

Accordingly, the Independent H Shareholders are reminded that if they do not accept the H Share Offer and the H Share Offer subsequently becomes unconditional in all respects and the H Shares are delisted from the Stock Exchange, this will result in the Independent H Shareholders holding securities that are not listed on the Stock Exchange and the liquidity of the H Shares may be severely reduced. In addition, the Company may or may not continue to be subject to the Takeovers Code after the completion of the H Share Offer depending on whether the Company remains as a public company thereafter.

The Shareholders will be notified by way of an announcement of the dates of the last day for dealing in the H Shares and on which the voluntary withdrawal of the listing of the H Shares on the Stock Exchange will become effective.

Once all of the Conditions have been satisfied, the H Share Offer will be declared unconditional in all respects and the H Share Offer should remain open for acceptance for not less than 28 days in compliance with the note to Rule 2.2 and Rule 15.3 of the Takeovers Code before the H Share Offer is closed in order to allow sufficient time for those H Shareholders who have not initially accepted the H Share Offer to accept the H Share Offer or to process the transfer of their H Shares.

PUBLIC FLOAT

In the event that any of the Conditions of the H Share Offer is not satisfied, the H Share Offer will not become unconditional and the H Share Offer will lapse. Under this circumstance, the public float of the Company will not be affected.

If the H Share Offer becomes unconditional, the Company will make an application for the voluntary withdrawal of the listing of the H Shares on the Stock Exchange in accordance with Rule 6.12 of the Listing Rules. The Offeror does not intend the H Shares to remain listed on the Stock Exchange after the close of H Share Offer. Under this circumstance, there will not be any issue concerning insufficiency of the public float.

CONFLICT OF INTEREST

The Offeror is held as to 70.5% by Mr. Chen, who is an executive Director, the ultimate controlling shareholder, the chairman and the founder of the Company, and 29.5% by Ms. Wang Rong, the spouse of Mr. Chen. As such, Mr. Chen has abstained from voting on the Board resolutions in relation to the H Share Offer and Delisting. Save as disclosed, no other Directors are considered to have any conflict of interest in respect of the H Share Offer and the Delisting.

LETTER FROM THE BOARD

MEETINGS

The Extraordinary General Meeting and the H Share Class Meeting will be convened for the purpose of passing resolutions by way of poll to approve the Delisting by the Independent H Shareholders at 9:30 a.m. and 10:00 a.m. or immediately after the conclusion or adjournment of the Extraordinary General Meeting, respectively on Tuesday, 15 September 2020, and pursuant to Rule 2.2 of the Takeovers Code, such approval must be given by at least 75% of the votes attaching to the H Shares held by the Independent H Shareholders that are cast either in person or by proxy at the Extraordinary General Meeting and the H Share Class Meeting; and the number of votes cast (by way of poll) against the resolutions should not be more than 10% of the votes attaching to all of the H Shares held by the Independent H Shareholders.

A notice of the Extraordinary General Meeting is set out in Appendix VI to this Composite Document. A notice of the H Share Class Meeting is set out in Appendix VII to this Composite Document. The Offeror and the parties acting in concert with the Offeror will abstain from voting in respect of all such Shares at the Extraordinary General Meeting and the H Share Class Meeting in accordance with Rule 2.2 of the Takeovers Code.

Whether or not you are able to attend the Extraordinary General Meeting and/or the H Share Class Meeting or any adjournment thereof, you are strongly urged to complete the accompanying proxy form(s) in accordance with the instructions printed thereon and return the same to the Registrar, Tricor Abacus Limited at Level 54, Hopewell Centre, 183 Queen's Road East, Hong Kong as soon as possible and in any event not less than twenty-four (24) hours before the time appointed for the Extraordinary General Meeting and the H Share Class Meeting.

Completion and return of the form of proxy will not preclude you from attending and voting in person at the Extraordinary General Meeting and the H Share Class Meeting or any adjournment thereof, should you so wish. In the event that you attend and vote at any of the Extraordinary General Meeting and the H Share Class Meeting or any adjournment thereof after having deposited the relevant form of proxy, that form of proxy will be deemed to have been revoked.

Comparison for the six months ended 30 June 2020 versus the six months ended 30 June 2019

During the six months ended 30 June 2020, the Group recorded a turnover of approximately RMB403.3 million as compared with that of approximately RMB513.5 million for the six months ended 30 June 2019 mainly due to the decrease in the sales of mobile phones and accessories by approximately 62.6%. According to the 2020 Interim Results Announcement, as a result of the global spread and the ongoing outbreak of the novel coronavirus epidemic, the Chinese and global economies experienced different degrees of instability. The decline in business orders from domestic customers, the suspension or slowdown of production and operation activities, and the significant decrease in the demand for automation led to a sluggish special computer market. Customers' orders placed before the epidemic requested for delay in delivery, while many projects won in bidding were delayed and were ultimately cancelled. Some products had been produced and put into storage but were unable to be delivered as customers could not receive and sign for their parcels. Nevertheless, the Company recorded an overall gross profit margin of approximately 17.5% for the six months ended 30 June 2020 which is comparable to that of approximately 16.8% for the six months ended 30 June 2019 mainly due to less sale of mobile phones and accessories which have lower profit margin comparing to special computer products.

LETTER FROM SORRENTO CAPITAL

Special computer products became the largest contributor of the Group's turnover for the six months ended 30 June 2020 which represented approximately 64.8% of the total turnover of the Group for the period. We have reviewed a sales breakdown of special computer products for the first half of 2019 and 2020 and noted that such increase in turnover was mainly due to the increased demand of computer products sold to customers relating to certain sectors such as information security and communication, railway and transportation, medical and government which are less sensitive to the recent spread of COVID-19.

Turnover from the sales of mobile phones and accessories decreased significantly by approximately 62.6% during the six months ended 30 June 2020 as compared to the same period in 2019. As advised by the Company, orders placed by a large customer in the PRC which mainly purchased mobile phone products have decreased in light of the spread of COVID-19.

Turnover from sales of properties increased from approximately RMB12.1 million for the six months ended 30 June 2019 to approximately RMB24.6 million for the six months ended 30 June 2020. We have reviewed a breakdown of sales of properties of the Group and noted that such growth was mainly due to the increase in sales and completion, in terms of area, of properties in Wuxi, Jiangsu Province, the PRC.

During the six months ended 30 June 2020, the Company did not conduct any trading business of chemical products as the Group occasionally conducted transactions to supply chemical products to a customer for its production of packing materials in second half of 2019.

Apart from the sales of properties, we also noted from other income of the Group that the Group recorded certain rental income from its investment properties. During the six months ended 30 June 2020, the Group recorded a net rentals (being gross rental less direct operating expenses arising from lease reimbursed from tenants) of approximately RMB51.6 million, representing a decrease of approximately 18.0% as compared to that of approximately RMB62.9 million in the same period in 2019 mainly due to the increase in vacancy rate of investment properties.

Operating costs comprising selling and distribution costs and administrative expenses of the Group increased from approximately RMB50.0 million for the six months ended 30 June 2019 to approximately RMB65.2 million for the six months ended 30 June 2020 mainly due to the increase in wages and welfare benefit of sales team and administrative staff.

During the six months ended 30 June 2020, the Group recorded a fair value loss on investment properties of approximately RMB20.1 million and fair value loss on transfer of properties under development to investment properties of approximately RMB0.4 million respectively.

LETTER FROM SORRENTO CAPITAL

Finance costs increased from approximately RMB98.9 million for the six months ended 30 June 2019 to approximately RMB106.4 million for the six months ended 30 June 2020 mainly due to increase in bank borrowings during the period.

As a result of the above, the Group recorded a loss for the year attributable to owners of the Company of approximately RMB16.3 million for the six months ended 30 June 2020 as compared to the profit of approximately RMB20.1 million for the six months ended 30 June 2019.

Comparison for the year ended 31 December 2019 versus the year ended 31 December 2018

During the year ended 31 December 2019, the Group recorded a turnover of approximately RMB1.7 billion as compared with that of approximately RMB1.4 billion for the year ended 31 December 2018 mainly due to (i) increase in the sales of special computer products by approximately 31.0%; (ii) increase in the sales of mobile phones and accessories by approximately 42.3%; and (iii) increase in the sales of properties by approximately 183.3%. The overall gross profit margin of the Group increased from approximately 15.2% for the year ended 31 December 2018 to approximately 27.4% for the year ended 31 December 2019 mainly due to the improvement of profit margin in special computer products. Nevertheless, as set out in the 2019 Annual Report, since 2019, (i) more and more Chinese enterprises have been included in the Entity List released by the U.S. Department of Commerce and thus more export restrictions on integrated circuits from the U.S.; and (ii) the price of storage integrated circuits increased due to the trade conflict between Japan and South Korea, and these factors intensified the risks pertaining to the availability of and the price rise in the raw materials of special computers.

Mobile phones and accessories remained as the largest contributor of the Group's turnover for the year ended 31 December 2019 which represented approximately 50.2% of the total turnover of the Group for the same year. As advised by the Company, such products were mainly mobile phones, tablet computers, parts and accessories and the increase in sales of them was mainly due to the increased demand of a large customer in the PRC which mainly purchased 3G and 4G mobile phone products.

Turnover from sales of properties recorded the largest percentage growth for the year ended 31 December 2019 as compared to the prior year. We have reviewed a breakdown of sales of properties of the Group and noted that such growth was mainly due to the increase in sales and completion, in term of area, of properties located in Wuxi, Jiangsu Province, the PRC.

During the year ended 31 December 2019, the Group occasionally conducted trading business to supply chemical products to a customer for its production of packing materials and such transactions were not conducted in 2018.

Total fair value gain on investment properties and transfer of properties held for sale to investment properties decreased from approximately RMB28.6 million for the year ended 31 December 2018 to approximately RMB17.9 million for the year ended 31 December 2019 mainly due to a decrease in value of properties held for sale transferred to investment properties.

Finance costs increased from approximately RMB98.6 million for the year ended 31 December 2018 to approximately RMB127.1 million for the year ended 31 December 2019 mainly due to the increase of bank borrowings.

Comparison for the year ended 31 December 2018 versus the year ended 31 December 2017

As set out in the 2018 Annual Report, with the intensification of the trade protectionism in Western countries and the lasting time and outcome of Sino-US trade frictions remaining unclear, risks and uncertainties for the Company's future business may increase. Therefore, the Company had simultaneously developed and launched independently controllable products (e.g. computer servers for industrial applications), seeking to tap the localized markets. During the year ended 31 December 2018, the Group recorded a turnover of approximately RMB1.4 billion as compared to approximately RMB1.3 billion for the year ended 31 December 2017 mainly due to (i) increase in the sales of mobile phones and accessories by approximately 59.8%; and (ii) increase in the sales of properties by approximately 105.7%. Administrative expenses increased from approximately RMB60.0 million for the year ended 31 December 2017 to approximately RMB91.2 million for the year ended 31 December 2018 mainly due to the increase of staff benefit cost and amortisation of renovation.

Fair value gain on transfer of properties held for sale to investment properties increased from approximately RMB14.5 million for the year ended 31 December 2017 to approximately RMB17.2 million for the year ended 31 December 2018 mainly due to increase in value of properties held for sale transferred to investment properties.

Accordingly, the Independent H Shareholders are reminded that if they do not accept the H Share Offer and the H Share Offer subsequently becomes unconditional in all respects, and the H Shares are delisted from the Stock Exchange, this will result in the Independent H Shareholders holding securities that are not listed on the Stock Exchange and the liquidity of the H Shares may be severely reduced. In addition, the Company may or may not continue to be subject to the Takeovers Code after the completion of the H Share Offer depending on whether it remains as a public company thereafter.

In this regard, the Offeror has applied to the Executive for a waiver from the requirements under Rule 2.2(c) of the Takeovers Code.

(iv) Reasons for and benefits of the H Share Offer and the Delisting

(a) Uncertain market conditions and the Group's prospect

As stated in the 2019 Annual Report, the Group's business and future prospects could be materially affected by certain risks and uncertainties. For example, as the Group is engaged in the development and production of computer, communication and electronic hardware which are technology-intensive and capital-intensive, there is uncertainty as to whether the Group can continue to succeed in research and development and maintain its competitive edge in technology. Furthermore, as stated in the 2019 Annual Report, the outbreak of coronavirus epidemic has caused increase in production cost in Mainland China, delay in supply of materials, production and sales schedule. As stated in the 2020 Interim Results Announcement, the Group recorded a decrease in turnover by approximately 21.5% and a loss attributable to the owners of the Company of RMB16.3 million. As a result of the global spread and the ongoing outbreak of the novel coronavirus epidemic, the Chinese and the global economies experienced different degrees of instability. The decline in business orders from domestic customers, the suspension or slowdown of production and operation activities, and the significant decrease in the demand for automation led to a sluggish special computer market. There are also increasing risks pertaining to the availability of and price rise in import of foreign integrated circuits, which poses relatively serious concerns to the continuous production and technological innovation of the Group's products.

As set out in the Letter from ICBCI, given such uncertainties to the Group's prospects and future financial performance, investors may have different expectations and requirements with regard to the return on investment of the Group, which may differ from the development plan of the Group in the long run.

LETTER FROM SORRENTO CAPITAL

The H Share Offer, if completed, will enable the Company to have greater flexibility to make timely investment decisions and to focus on the long term development of the Group.

The Offeror also considers that the Delisting will facilitate business integration between the Offeror and the Company, giving the Offeror more flexibility to support the future business development of the Company without being subject to regulatory restrictions and compliance obligations associated with the related obligations arising from the listing status of the Company on the Stock Exchange. After the Delisting, the relevant listing costs and expenses will also be saved.

We have reviewed the 2020 Interim Results Announcement to analyse its recent performance of the Group and noted that the unaudited turnover and profit for the six months ended 30 June 2020 decreased by approximately 21.5% as compared to that for the same period in prior year and net loss was recorded for the six months ended 30 June 2020 as compared to profit for the same period in prior year. As advised by the Company, utilisation of the Group's production capacity in respect of its special computer products and electronic accessories decreased in the first six months in 2020 as compared to the same period in 2019 mainly due to the longer time required for the Group to receive their materials from suppliers and the suspension of production post outbreak of COVID-19 and hence, profitability was adversely affected. As regard the near future, the Group will use their best endeavour to negotiate with customers for new orders as well as suppliers for stable supplies. However, these are subject to the recovery of economic activities in the PRC which will mainly depend on the trading relationship between the PRC and U.S. and control of COVID-19 and the outcome and timing of which the Board is unable to predict. As regard to the sales of properties of the Group, we were advised by the Company that due to the current uncertain economic environment, progress of the Group's construction as well as the completion of properties have been and would continue to be adversely affected.

For the investment properties of the Group, we have reviewed a list of tenancy and noted that most of the tenure are expected to expire by 2020 and 2021. Under the uncertain economic environment and in the absence of long term tenancy, the Company considers that the continuance of existing leases of the Group's properties and level of recurring rental income in future may also be affected. As advised by the Company, they will continue to review the status of the uncertain business environment and devise strategies on their business and use of the Group's resources for long term development of the Group but no concrete plan has been formulated as at the Latest Practicable Date.

LETTER FROM SORRENTO CAPITAL

(b) Realisation of investment by the Independent H Shareholders

For the H Shareholders, the Offeror believes that the H Share Offer provides a compelling opportunity to dispose of their H Shares for the following reasons:

- **Premium valuation:** the H Share Offer provides an opportunity for the H Shareholders to sell their H Shares and receive cash at a price above the prevailing market price. In particular, closing price of the H Shares has never exceeded the H Share Offer Price for almost two years-time. The H Share Offer Price represented a premium of approximately 105.5% over the last 60 trading days immediately prior to and including the Last Trading Date.
- **Certain and immediate value:** since trading volume in the H Shares has been thin for most of the time during a relatively long period, it may be challenging for the H Shareholders to dispose of their H Shares without adversely affecting the market price of the H Shares. The monthly total trading volume of the H Shares (as a percentage to total issued H Shares) during 1 January 2020 to 31 May 2020 ranged from 0.7% to 2.1% only. The H Share Offer presents an opportunity for the H Shareholders to dispose of their H Shares and exit their investment for cash proceeds which may be reinvested in alternative investments with higher quality.
- **Avoidance of holding unlisted shares:** assuming the H Share Offer will become unconditional, the Company will make an application for the listing of the H Shares to be withdrawn from the Stock Exchange in accordance with Rule 6.12 of the Listing Rules. If the H Shares are delisted from the Stock Exchange, the H Shares will become securities that are not listed or quoted on any stock exchange and the liquidity of the H Shares will be severely reduced.

The H Share Offer Price of HK\$1.50 per H Offer Share represents:

- (i) a premium of approximately 64.8% over the closing price of HK\$0.91 per H Share as quoted on the Stock Exchange on 15 June 2020 prior to the trading halt of the H Shares pending from the release of the Rule 3.5 Announcement;
- (ii) a premium of approximately 82.9% over HK\$0.82 which is the average closing price per H Share as quoted on the Stock Exchange for the five consecutive trading days up to and including the Last Trading Date;
- (iii) a premium of approximately 94.8% over HK\$0.77 which is the average closing price per H Share as quoted on the Stock Exchange for the 10 consecutive trading days up to and including the Last Trading Date;

LETTER FROM SORRENTO CAPITAL

- (iv) a premium of approximately 100.0% over HK\$0.75 which is the average closing price per H Share as quoted on the Stock Exchange for the 30 consecutive trading days up to and including the Last Trading Date;
- (v) a premium of approximately 105.5% over the average closing price of approximately HK\$0.73 per H Share as quoted on the Stock Exchange for the last 60 trading days immediately prior to and including the Last Trading Date;
- (vi) a premium of approximately 100.0% over the average closing price of approximately HK\$0.75 per H Share as quoted on the Stock Exchange for the last 90 trading days immediately prior to and including the Last Trading Date;
- (vii) a premium of approximately 89.9% over the average closing price of approximately HK\$0.79 per H Share as quoted on the Stock Exchange for the last 180 trading days immediately prior to and including the Last Trading Date;
- (viii) a discount of approximately 35.6% to the audited consolidated net asset value of the Company of approximately RMB2.09 per Share as at 31 December 2019 (equivalent to approximately HK\$2.33 per Share based on the exchange rate of HK\$1.00 to RMB0.89551 according to the rate cited from People's Bank of China as at the Latest Practicable Date);
- (ix) a discount of approximately 35.4% to the unaudited consolidated net asset value of the Company of approximately RMB2.08 per Share as at 30 June 2020 according to the 2020 Interim Results Announcement (equivalent to approximately HK\$2.32 per Share based on the exchange rate of HK\$1.00 to RMB0.89551 according to the rate cited from People's Bank of China as at the Latest Practicable Date);
- (x) a discount of approximately 52.2% to the adjusted unaudited consolidated net asset value per Share of the Company (the "**Adjusted Unaudited NAV per Share**") of approximately RMB2.81 per Share as at 30 June 2020 (equivalent to approximately HK\$3.14 per Share based on the exchange rate of HK\$1.00 to RMB0.89551 according to the rate cited from People's Bank of China as at the Latest Practicable Date) which is arrived at after taking into account (i) the unaudited net asset value of the Company attributable to the Shareholders as at 30 June 2020; and (ii) the revaluation surplus property interest over the net book value of the properties as at 30 June 2020 net of estimated deferred taxation arising from the revaluation surplus (details of the Adjusted Unaudited NAV and property valuation are set out in the Appendix II and Appendix III to the Composite Document respectively); and

LETTER FROM SORRENTO CAPITAL

- (xi) a premium of approximately 15.4% over the closing price of HK\$1.30 per H Shares as quoted on the Stock Exchange as at the Latest Practicable Date.

We have assessed the reasonableness of the H Share Offer Price by referencing to (i) the historical trading prices of the H shares; (ii) the trading volume of the H Shares; (iii) market comparable analysis; and (iv) precedents of privatisation transactions and set out in the following context of this letter.

(v) Historical Share price performance

For the purpose of further comparing the H Share Offer Price of HK\$1.50 per H Share with the market price of the H Shares, we have plotted the closing price level of the Shares traded on the Stock Exchange for a 12 month period (“**Pre-Announcement Period**”) from 13 June 2019 to 15 June 2020, being the date on which the trading of the H Shares was halted in the morning trading session, and further up to the Latest Practicable Date (the “**Post-Announcement Period**”, collectively the “**Review Period**”) as follows:

Closing price of the H Shares during the Review Period

Source: The Stock Exchange

LETTER FROM SORRENTO CAPITAL

(a) Pre-Announcement Period

As shown in the chart above, closing prices of the H Shares were below the H Share Offer Price during the entire Pre-Announcement Period and fluctuated between HK\$0.66 per H Share and HK\$0.92 per H Share. During this period, the Company announced (i) its unaudited interim results for the six months ended 30 June 2019 on 9 August 2019; (ii) its unaudited annual results for the year ended 31 December 2019 on 31 March 2020; and (iii) its further information in relation to its audited annual results for the year ended 31 December 2019 on 15 April 2020 that there was no change in audited results as compared with the unaudited ones previously announced.

Since 10:07 a.m. on 15 June 2020, trading of the Shares was halted pending the publication of an announcement by the Company pursuant to Takeovers Code containing certain inside information of the Company. Before the time of trading halt, the closing price of the H Shares was HK\$0.91 per H Share which was almost the highest closing price during the Pre-Announcement Period.

(b) Post-Announcement Period

At 9:00 a.m. on 23 June 2020, trading of the H Shares was resumed after the publication of the Rule 3.5 Announcement and the closing price of the H Share reached HK\$1.35 per H Share. Since then the closing prices of the H Shares have been generally on a decreasing trend but remained above HK\$1.26 per H Share. On 10 July 2020, the Company announced that Mr. Wen Bing and Mr. Dong Li Xin retired as the independent non-executive Directors and Ms. Wu Yan Nan and Mr. Ling Chun Kwok were appointed as the independent non-executive Directors with effect from 29 June 2020 and both Ms. Wu Yan Nan and Mr. Ling Chun Kwok became members of the Independent Board Committee. On 13 July 2020, the Company announced the delay in despatch of the Composite Document. On 12 August 2020, the Company announced the monthly update on the H Share Offer and the Delisting. On 14 August 2020, the Company announced its unaudited interim results for the six months ended 30 June 2020.

As confirmed by the Directors, save for the release of the Rule 3.5 Announcement, the Directors are not aware of any specific event that caused the substantial increases in prices of the H Shares immediately after the publication of the Rule 3.5 Announcement. Hence, we consider that the aforesaid increases in prices of the H Shares reflected the market's reaction to the H Share Offer.

Notes:

1. Average daily trading volume is calculated by dividing the total trading volume for the month/period by the number of trading days during the month/period which exclude any trading day on which trading of the H Shares on the Stock Exchange was suspended for the whole day, if any.
2. The calculation is based on the average daily trading volume of the H Shares divided by the balance of total number of issued H Share at the end of the respective month/period. As set out in the Letter from the Board, none of the Offeror or parties acting in concert with it legally or beneficially owns any H Shares.

LETTER FROM SORRENTO CAPITAL

3. Only 12 trading days are taken into account as the Review Period commences from 13 June 2019.
4. Trading in the H Shares was halted for around six trading days from 10:07 a.m. on 15 June 2020 to 22 June 2020 pending the publication of the Rule 3.5 Announcement.

As illustrated in the table above, the average daily trading volume of the H Shares for the respective month/period was generally thin during the Pre-Announcement Period and ranged from approximately 89,976 H Shares in September 2019 to approximately 675,993 H Shares recorded in June 2020, representing approximately 0.029% to approximately 0.219% of the total number of the H Shares in issue as at the end of the relevant month/period. Such percentages also represent the average daily trading volume of the H Shares held by the Independent H Shareholders during the Pre-Announcement Period as none of the Offeror or parties acting in concert with it legally or beneficially owns any H Shares according to the Letter from the Board.

The Rule 3.5 Announcement was published on 23 June 2020 and trading in the H Shares was resumed from 9:00 a.m. on 23 June 2020. During the five trading days post the publication of the Rule 3.5 Announcement, the average daily trading volume of the H Shares reached approximately 6,637,600 H Shares. As a result, the trading volume in June 2020 was higher than all other months during the Review Period. The average daily trading volume of the H Shares decreased to approximately 1,138,575 H Shares in July 2020 and approximately 652,400 H Shares in August 2020 (up to the Latest Practicable Date) respectively but remained higher than those during the Pre-Announcement Period (except June 2020).

The H Shareholders should be mindful as to whether there will be sufficient liquidity in the H Shares for those who wish to realise part or all of their investment in the Company at the prevailing market price of the H Shares and whether their disposal of H Shares will exert a downward pressure on the market prices of the H Shares.

(vii) Market comparable analysis

The Group is principally engaged in two business segments, namely (i) the research, development, manufacturing and distribution of special computer products and the trading of electronic accessories; and (ii) the sales of development properties. According to the 2019 Annual Report and the 2020 Interim Results Announcement, (i) substantial portion of the turnover of the Company for the year ended 31 December 2019 and the six months ended 30 June 2020 was contributed by the sales of special computer products and electronic products and accessories; and (ii) the majority of the total assets of the Company as at 31 December 2019 and 30 June 2020 were investment properties, properties under development and properties held for sale. As such we have conducted research on the companies listed on the Stock Exchange with similar business model, products, geographic markets and size but there is no companies listed on the Stock Exchange principally engaged in the sales of the same product mix (i.e. mainly special computers, electronic products and accessories and properties) as at the Latest Practicable Date. Hence, we have conducted research on two different industries, namely electronics (including information technology hardware and

LETTER FROM SORRENTO CAPITAL

equipment, computers, mobile phones and related parts) and property development and investment which are relevant to the Group's principal businesses, and exhaustively identified (i) six companies listed on the Stock Exchange which are principally engaged in sales of electronic products; and (ii) 17 companies listed on the Stock Exchange which are principally engaged in development and investment of properties. In selecting these 23 companies, we take into account those (i) with not less than 90% of revenue generated from an industry similar to those of the Group in the latest financial year and interim period (if announced); (ii) with not less than 90% of revenue generated from the PRC market as all the turnover of the Group are located in the PRC; and (iii) with market capitalisation of not more than HK\$2.0 billion as at the Latest Practicable Date which we consider a reasonable benchmark for size comparison as the hypothetical market capitalisation of the Company was approximately HK\$1.60 billion as at the Latest Practicable Date (based on the closing price of the H Shares and the total number of the Shares in issue (including both Domestic Shares and H Shares) as at the Latest Practicable Date).

Nevertheless, among the abovementioned six companies principally engaged in sales of electronic products, we noted that trading of shares of China Trends Holdings Limited (stock code: 8171) and Global Token Limited (stock code: 8192) on the Stock Exchange have been suspended since March 2020 and October 2019 respectively. Therefore we consider that their respective closing prices on last trading days may not reflect the current position of these two companies and hence the market capitalisation and market multiple valuation of these two companies are not meaningful for comparison. In view of the similarity of the industry, geographic market and market capitalisation of the remaining four companies principally engaged in sales of electronic products (the "**Electronic Comparables**") and the abovementioned 17 companies principally engaged in development and/or investment of properties (the "**Property Comparables**", together with the Electronic Comparables, the "**Market Comparables**") and those of the Company, we consider the Market Comparables are fair and representative sample for comparison to the Company. Shareholders should note that the principal activities, market capitalisations, profitability and financial positions of each of the Market Comparables are different which may affect how they are actually valued and their respective market multiple valuations in the market. Therefore, the comparison with the Market Comparables set out in this letter is solely for general reference to the market trend when assessing the fairness and reasonableness of the H Share Offer Price.

In assessing the fairness and reasonableness of the H Share Offer Price, we have performed a price-to-earnings ratio (the "**P/E Ratio**") analysis, which is one of the most widely used and accepted methods for valuing a business with recurrent income. However, as property related assets (i.e. property, plant and equipment, right-of-use assets and properties under development) of all the Electronic Comparables represent relatively small percentages of their total assets as at the end of their respective latest financial year or interim period when comparing to the Group, we consider the net asset approach is not an appropriate approach to assess the fairness and reasonableness of the H Share Offer Price with reference to the Electronic Comparables. On the other hand, as the Group did not declare or distribute any

LETTER FROM SORRENTO CAPITAL

dividend for the last financial year, we consider that the price-to-dividends approach is not applicable in assessing the fairness or reasonableness of the H Share Offer Price in this case. Details of our analysis on the P/E Ratios of the Company and the Electronic Comparables are set out in the table below.

The following table sets out the Electronic Comparables we consider as reasonable benchmarks for the Group:

LETTER FROM SORRENTO CAPITAL

Notes:

1. Unless otherwise specified, market capitalisation is calculated based on the closing price of shares and the number of shares in issue of the Electronic Comparables as at the Latest Practicable Date.
2. The net asset value attributable to shareholders refers to the latest published accounts set out in annual reports or interim results announcement/interim reports of the Electronic Comparables.
3. The market capitalisation is calculated based on the closing price of shares on the Stock Exchange and the total number of shares (i.e. both H shares and domestic shares) in issue of Zhejiang Rui Yuan Intelligent Control Technology Company Limited as at the Latest Practicable Date.
4. Based on the H share Offer Price of HK\$1.50 per H Share and the earning per Share of approximately RMB0.213 (calculated based on the consolidated audited profit for the year attributable to owners of the Company of approximately RMB263.15 million for the year ended 31 December 2019 and the 1,233,144,000 Share issued (both Domestic Shares and H Shares) as at the Latest Practicable Date).
5. In the calculation above, figures denominated in RMB as stated in the relevant annual reports or interim results announcement/interim reports of the Electronic Comparables are translated into HK\$ at the exchange rate of HK\$1.00 to RMB0.89551 according to the rate cited from People's Bank of China as at the Latest Practicable Date.

As illustrated in the table above, the P/E Ratio of the Electronic Comparable with profit recorded (i.e. Changhong Jiahua Holdings Limited) is approximately 4.07 times as at the Latest Practicable Date which is lower than the P/E Ratio of the Company of approximately 6.29 times as implied by the H Share Offer Price. Since the majority of the total assets of the Company were relating to its properties held for sale and investment properties, we have further assessed the fairness and reasonableness of the H Share Offer Price by comparing to the P/E Ratios and price-to-book ratio (the “**P/B Ratios**”) of the Property Comparables with reference to the unaudited net asset value per Share of the Group as at 30 June 2020 and the Adjusted Unaudited NAV per Share (details of the Adjusted Unaudited NAV and property valuation are set out in the Appendix II and Appendix III to the Composite Document).

Notes:

1. Unless otherwise specified, market capitalisation is calculated based on the closing price of shares and the number of shares in issue of the Property Comparables as at the Latest Practicable Date.
2. The net asset value attributable to shareholders refers to the latest published accounts set out in annual reports or interim results announcement/interim reports of the Property Comparables.
3. Based on the H share Offer Price of HK\$1.50 per H Share and the earning per Share of approximately RMB0.213 (calculated based on the consolidated audited profit for the year attributable to owners of the Company of approximately RMB263.15 million for the year ended 31 December 2019 and the 1,233,144,000 Share issued (both Domestic Shares and H Shares) as at the Latest Practicable Date).

LETTER FROM SORRENTO CAPITAL

4. In the calculation above, figures denominated in RMB as stated in the relevant annual reports or interim results announcement/interim reports of the Property Comparables are translated into HK\$ at the exchange rate of HK\$1.00 to RMB0.89551 according to the rate cited from People's Bank of China as at the Latest Practicable Date.

As illustrated in the table above, the P/E Ratios of the Property Comparables as at the Latest Practicable Date range from approximately 1.52 times to approximately 42.65 times with eight Property Comparables recorded net loss during their respective latest financial years. The P/E Ratio of the Company of approximately 6.29 times as implied by the H Share Offer Price is above the median P/E Ratio of the Property Comparables. The P/B Ratios of the Property Comparables as at the Latest Practicable Date range from approximately 0.02 time to approximately 1.96 time with mean of approximately 0.52 time and median of approximately 0.39 time. The P/B Ratio of the Company of approximately 0.64 time as implied by the H Share Offer Price over the unaudited net asset value per Share based on the 2020 Interim Results Announcement and the P/B Ratio of the Company of approximately 0.48 time as implied by the H Share Offer Price over the Adjusted Unaudited NAV per Share are above the median P/B Ratio of the Property Comparables. On that basis, we consider that the H Share Offer Price is fair and reasonable.

(viii) Precedents of privatisation transactions

To further assess the fairness and reasonableness of the H Share Offer Price, we have exhaustively searched for completed privatisation transactions (for our analysis purpose, we excluded proposals without cash consideration) of which joint announcements setting out the offer prices/cancellation prices for ordinary shares were made by Hong Kong listed companies from 16 June 2018 (being two years prior to the Last Trading Date) up to the Latest Practicable Date. We found 19 privatisation cases (the “**Privatisation Cases**”) which meet the aforesaid criteria for comparison.

The premium is calculated with reference to the aggregate value of cash consideration and closing prices of relevant consideration shares.
- Based on the closing price of HK\$0.91 per H Share on 15 June 2020 prior to the trading halt of the H Shares pending from release of the Rule 3.5 Announcement.

LETTER FROM SORRENTO CAPITAL

As depicted above, the premium of the H Share Offer Price over the closing price on 15 June 2020 fall within the range of and is higher than the mean and median of the Privatisation Cases and the premium of the H Share Offer Price over the average closing price per share for the 30 trading days up and including the Last Trading Date is higher than all of the Privatisation Cases.

(ix) The Delisting

As set out in the Letter from ICBCI, the Offeror considers that the Delisting will facilitate business integration between the Offeror and the Company, giving the Offeror more flexibility to support the future business development of the Company without being subject to regulatory restrictions and compliance obligations associated with the related obligations arising from the listing status of the Company on the Stock Exchange. After the Delisting, the relevant listing costs and expenses will also be saved. As set out in the Letter from the Board, the Offeror does not intend the H Shares to remain listed on the Stock Exchange after the close of the H Share Offer.

The Delisting also forms part of the Conditions and the fulfilment of which the H Share Offer is subject to the passing of the resolutions by the Independent H Shareholders approving the Delisting at the H Share Class Meeting and the Extraordinary General Meeting respectively, provided that (i) approval is given by at least 75% of the votes attaching to the H Shares (or the Shares for the Extraordinary General Meeting) held by the Independent H Shareholders that are cast either in person or by proxy; and (ii) the number of votes cast (by way of poll) against the resolutions are not more than 10% of the votes attaching to all the H Shares (or all the Shares for the Extraordinary General Meeting) held by the Independent H Shareholders. The Offeror and the parties acting in concert with the Offeror will abstain from voting in respect of all such Shares in the Extraordinary General Meeting and the H Share Class Meeting in accordance with Rule 2.2 of the Takeovers Code.

As set out in the Letter from ICBCI, once all of the Conditions have been satisfied, the H Share Offer will be declared unconditional in all respects and the H Share Offer should remain open for acceptance for not less than 28 days in compliance with the note to Rule 2.2 and Rule 15.3 of the Takeovers Code before the H Share Offer is closed in order to allow sufficient time for those H Shareholders who have not initially accepted the H Share Offer to accept the H Share Offer or to process the transfer of their H Shares. Upon the H Share Offer becoming unconditional, the Company will make an application for the Delisting in accordance with Rule 6.12 of the Listing Rules.

Given (i) the abovementioned commercial rationale for and the Offeror's intention to the Delisting after the close of the H Share Offer; (ii) the H Share Offer Price is fair and reasonable (details of our assessment of which have been set out in the earlier context of this letter); and (iii) the Offeror will provide a longer period for offer acceptance, particularly to those Independent H Shareholders not initially accept the H Share Offer, we consider that the Delisting is fair and reasonable.

LETTER FROM SORRENTO CAPITAL

RECOMMENDATION

Having considered the principal factors set out above, in particular, the following:

- (i) the H Share Offer Price represents a premium of approximately 64.8% over the closing price of the H Shares as quoted on the Stock Exchange on 15 June 2020 prior to the trading halt of the H Shares pending from the release of the Rule 3.5 Announcement;
- (ii) the H Share Offer Price represents a premium of approximately 15.4% over the closing price of the H Shares as at the Latest Practicable Date;
- (iii) the H Share Offer Price have been above the closing prices of the H Shares throughout the Review Period;
- (iv) the trading liquidity of the H Shares is low and disposal of a large number of H Shares by Independent H Shareholders in the open market may have adverse impact on the price of H Shares;
- (v) the P/E Ratio of approximately 6.29 times implied by the H Share Offer Price is above median P/E Ratio of the Electronic Comparables and Property Comparables respectively and the P/B Ratio of approximately 0.64 time implied by the H Share Offer Price over the unaudited net asset value per Share based on the 2020 Interim Results Announcement and approximately 0.48 time implied by the H Share Offer Price over the Adjusted Unaudited NAV per Share are above median P/B Ratio of the Property Comparables;
- (vi) the premiums of the H Share Offer Price over the closing price as quoted on the Stock Exchange on 15 June 2020 of approximately 64.8% and the 30 consecutive trading days up to and including the Last Trading Date of approximately 100.0% respectively are significantly higher than those of the Privatisation Cases;
- (vii) the future prospects of the Group's business may remain uncertain in view of the impact by the trade conflict between the PRC and U.S. and spread of COVID-19 as detailed above; and
- (viii) the commercial rationale for and the Offeror's intention to the Delisting and the H Share Offer will remain open for acceptance for a longer period, particularly to those Independent H Shareholders not initially accept the H Share Offer,

we consider that the terms of the H Share Offer (including the H Share Offer Price) and the Delisting are fair and reasonable so far as the Independent H Shareholders are concerned. Accordingly, we recommend the Independent Board Committee to advise the Independent H Shareholders to (i) accept the H Share Offer; and (ii) vote in favour of the resolutions in respect of the Delisting at the H Share Class Meeting and the Extraordinary General Meeting respectively.

LETTER FROM SORRENTO CAPITAL

Those Independent H Shareholders may, having regard to their own circumstances, consider retaining all or any part of their H Shares (the “Retaining Shareholders”).

The Offeror has no rights under the laws of the PRC and the Articles of the Company to compulsorily acquire the H Shares that are not tendered for the acceptance pursuant to the H Share Offer.

In the event that the Retaining Shareholders do not accept the H Share Offer and given that the Delisting shall take effect following the end of the Offer Period, (i) this will result in the Retaining Shareholders holding unlisted H Shares and the liquidity of the H Shares may be severely reduced; (ii) the rights/interests of the Retaining Shareholders will no longer be protected by the Listing Rules; and (iii) the Company may not continue to be subject to the Takeovers Code after the completion of the H Share Offer depending on whether it remains as a public company in Hong Kong and the rights/interests of the Retaining Shareholders may no longer be protected by the Takeovers Code.

The Independent H Shareholders should also monitor the H Share price closely, if the Independent H Shareholders decide to accept the H Share Offer but the proceeds of selling in the market (net of costs) would be higher than the net proceeds receivable under the H Share Offer, they should sell in the market instead. They should also keep in mind that, if applicable, dealings in the H Shares will be suspended from the day following the Final Closing Date up to the withdrawal of listing of the H Shares (if approved) from the Stock Exchange.

As different Independent H Shareholders would have different investment criteria, objectives and/or circumstances, we would recommend any Independent H Shareholders who may require advice in relation to any aspect of the Composite Document, or as to the action to be taken, to consult a licensed securities dealer, bank manager, solicitor, professional accountant, tax adviser or other professional adviser. The Independent H Shareholders are also reminded to read carefully the procedures for accepting the H Share Offer as detailed in the Composite Document, the appendices to the Composite Document and the relevant form of acceptance and transfer, if they wish to accept the H Share Offer.

Yours faithfully,
For and on behalf of
Sorrento Capital Limited

6. NOMINEE REGISTRATION

To ensure the equality of treatment of all H Shareholders, H Shareholders who hold the H Share(s) as nominees on behalf of more than one beneficial owner should, as far as practicable, treat the holding of each beneficial owner separately. Further details of the aforementioned property interests and the corresponding property valuation report prepared by CBRE are set out in "Appendix III — Property Valuation Report" to this Composite Document.

Set out below is the adjusted unaudited consolidated net asset value (“Adjusted Unaudited NAV”) of the Group attributable to the Shareholders as at 30 June 2020:

	Unaudited consolidated net asset value RMB
Unaudited consolidated net asset value of the Group attributable to the Shareholders as at 30 June 2020	2,568,432,000
Net asset value per share as at 30 June 2020 (based on 1,233,144,000 Shares in issue as at 30 June 2020)	<u>2.08</u>
Add: Revaluation surplus arising from the valuation of the property interests held by the Group as at 30 June 2020 (Note 1)	1,475,375,000
Less: Deferred taxation arising from the revaluation surplus (Note 2)	<u>582,927,000</u>
Net revaluation surplus attributable to owners of the Company	<u>892,448,000</u>
Adjusted Unaudited NAV	<u><u>3,460,880,000</u></u>
Adjusted Unaudited NAV per share (based on 1,233,144,000 Shares in issue as at 30 June 2020)	<u><u>2.81</u></u>

Notes:

1. Being the fair value of the property interests held by the Group as at 30 June 2020 as assessed by CBRE less the fair value of the property interests held by the Group adopted in the unaudited consolidated interim results including properties under development, properties held for sale, land and buildings, investment properties and prepaid land lease as at 30 June 2020. Such difference is mainly arisen from the differences between the valuation methods used by CBRE and the Group’s accounting policies of such property interests as stated in the annual report of the Company.
2. Being the estimated related taxation, which is calculated based on the estimated land appreciation tax (“LAT”) and corporate income tax (“CIT”) that would crystallise upon disposal of the properties at the valuation price.

In relation to properties under development and properties held for sale which are located in the PRC, the deferred tax is estimated with reference to the historic effective tax rate (including the LAT and CIT according to the requirements set forth in the relevant PRC laws and regulations) for similar projects on the revaluation surplus. In relation to land and building, investment properties and prepaid land lease, the deferred tax is calculated based on CIT at 25% while LAT is not applicable.

The following is the text of a letter, summary of values and valuation certificate prepared for the purpose of incorporation in this Composite Document received from CBRE, an independent valuer, in connection with their opinion of values as at 30 June 2020 of the properties of the Group.

EVOC Intelligent Technology Company Limited

EVOC Technology Building,
No. 31 Gaoxinhongsi Road,
Nanshan District, Shenzhen,
People's Republic of China

Dear Sirs,

In accordance with instructions from EVOC Intelligent Technology Company Limited (the "Company") to value all the properties in which EVOC Intelligent Technology Company Limited and its subsidiaries (collectively referred to as "the Group") has interests in the People's Republic of China (the "PRC"), we confirm that we have carried out inspections, made relevant enquiries, and obtained such further information as we consider necessary for the purpose of providing you with our opinion on the market values of such properties as at 30 June 2020 (the "Valuation Date").

VALUATION BASIS, ASSUMPTIONS AND METHODOLOGY

Our valuation is prepared in accordance with the HKIS Valuation Standards (2017 Edition) published by the Hong Kong Institute of Surveyors ("the HKIS"), the RICS Valuation — Global Standards 2020 published by the Royal Institution of Chartered Surveyors ("RICS") and International Valuation Standards ("IVS") published by the International Valuation Standards Council.

Our valuation is made on the basis of Market Value which is defined as “the estimated amount for which an asset or liability should exchange on the Valuation Date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion”.

We have also complied with all the requirements contained in Chapter 5 and Practice Note 12 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) and Rule 11 of the Takeovers Code.

Our valuation has been made on the assumption that the owner sells the property on the market without the benefit or burden of a deferred term contract, leaseback, joint venture, or any similar arrangement, which would serve to affect the values of the property interests.

No allowance has been made in our valuation for any charges, mortgages or amounts owing neither on the property nor for any expenses or taxation which may be incurred in effecting sale. Unless otherwise stated, it is assumed that the properties are free from encumbrances, restrictions and outgoings of an onerous nature which could affect their values.

We have valued the properties in Group I which are held by the Group for sale, and portions of the properties in Group II which are held by the Group for owner occupation, portions of the properties in Group III which are held by the Group for investment, and the properties in Group V which are held by the Group for future development by the Direct Comparison Approach on the assumption that each property can be sold in their existing state with the benefit of immediate vacant possession by making reference to comparable sales evidence as available in the relevant market. Comparable properties with similar sizes, characteristics and locations are analyzed, and carefully weighed against all respective advantages and disadvantages of each property in order to arrive at a fair comparison of value.

We have also valued portions of properties in Group II which are held by the Group for owner occupation and portions of properties in Group III which are held by the Group for investment by using the Income Approach by taking into account the rental income of the properties derived from the existing leases and/or achievable in the existing market with due allowance for the reversionary income potential of the leases, which have been then capitalized to determine the market value at an appropriate capitalization rate. Where appropriate, reference has also been made to the comparable sales evidence as available in the relevant market.

In valuing the properties in Group IV which are under development, we have assumed that they will be developed and completed in accordance with the latest development proposal provided to us by the Group. In arriving at our opinion of value, we have adopted the income approach and/or comparison approach by making reference to comparable sales evidence as available in the relevant market and have also taken into account the accrued construction cost and professional fees relevant to the stage of construction as at the valuation date and the remainder of the cost and fees that are expected to be incurred for completing the development. We have relied on the accrued construction cost and

professional fees information provided by the Group according to the different stages of construction of the subject properties as at the valuation date and we did not find any material inconsistency from those of other similar developments.

In compliance with Rule 11.3 of the Takeovers Code, the potential tax liabilities which would arise from the sale of the properties as advised by the Group are listed as follows. Profit tax is levied on the profit from the sale of the properties at 25%. Value added tax and related taxes are levied at 5.3% or 9.3% of the transaction amount. Besides, land appreciation tax is levied on the gains from the appreciation of property value, at progressive rates ranging from 30% to 60% based on the amount of land value appreciation.

For the property interest held for sale by the Group, the property interests are intended to be sold as advised by the Group. Hence, the likelihood of the potential tax liability being crystalized is considered to be high. For the property interests held for investment, for occupation, under development and for future development by the Group, as advised by the Group, the Group has no intention to dispose such property interests as at 14 August 2020, being the latest practicable date. Hence, the likelihood of the potential tax liability being crystalized is considered to be remote. We have not taken into account the tax liability in the course of our valuation.

SOURCE OF INFORMATION

We have relied on information provided by the Group, in particular, but not limited to the sales records, planning approvals, statutory notices, easements, development scheme, construction costs, development time schedules, site area and floor area, tenancy schedules, interests attributable to the Group and other relevant information. No on-site measurement has been taken. Dimensions, measurements and areas included in the property summaries are only approximations. We have taken every reasonable care both during reviewing the information provided to us and in making relevant enquiries. We have no reason to doubt the truth and accuracy of the information provided to us by the Group, which is material to the valuation. We were also advised by the Group that no material facts have been omitted from the information provided to us.

In the course of our valuation for the properties in the PRC, we have relied on the legal opinion dated 13 August 2020 provided by the Company's PRC legal advisor, Commerce & Finance Law Office. We have been provided with extracts from title documents relating to such properties. We have not, however, inspected the original documents to verify ownership or any amendment which did not appear on the copies handed to us. All documents have been used for reference only. Unless otherwise stated, in valuing the properties, we have prepared our valuation on the basis that the owners have proper title to the properties and have free and uninterrupted rights to use, occupy or assign the properties for the whole of the unexpired terms as granted.

PROPERTY INSPECTION

We have inspected the exterior of the properties and, where possible, the interior of the properties. In the course of our inspection, we did not notice any serious defects. However, we have not carried out any structural survey, nor any tests were made on the building services, nor any investigation to determine the presence of any deleterious or hazardous material in the properties. Therefore, we are not able to report whether the properties are free of rot, infestation, deleterious materials or any other structural defects.

We have not carried out site measurements to verify the correctness of the areas of the properties. We have assumed that the areas shown on the documents and site plans provided to us are correct. During our inspection, we have not carried out investigations on the site to determine the suitability of the ground conditions and the services for any future development. Our valuation is on the basis that these aspects are satisfactory.

Ms. Meg Zhang, Ms. Clara Shi, Ms. Coco Zhu, Ms. Jin Zheng, Mr. Laurent Li, Mr. Kaiser Lo and Ms. Ilkka Zhang have provided professional assistance and/or inspected the properties in July 2020. They are Chartered Surveyors/China Real Estate Appraisers or have more than 2 years' experience in the valuation of properties in the PRC.

IMPORTANT WARNING — MATERIAL VALUATION UNCERTAINTY FROM NOVEL CORONAVIRUS

The outbreak of the Novel Coronavirus (COVID-19), declared by the World Health Organisation as a “Global Pandemic” on the 11 March 2020, has impacted many aspects of daily life and the global economy — with some real estate markets experiencing significantly lower levels of transactional activity and liquidity. As at the valuation date, in the case of the subject properties, there is a shortage of market evidence for comparison purposes, to inform opinions of value.

Our valuation of the properties is therefore reported as being subject to ‘material valuation uncertainty’. Consequently, less certainty — and a higher degree of caution — should be attached to our valuation than would normally be the case.

For the avoidance of doubt, the inclusion of the ‘material valuation uncertainty’ declaration above does not mean that the valuation cannot be relied upon. Rather, the declaration has been included to ensure transparency of the fact that — in the current extraordinary circumstances — less certainty can be attached to the valuation than would otherwise be the case. The material uncertainty clause is to serve as a precaution and does not invalidate the valuation.

Values may change more rapidly and significantly than during standard market conditions. Given the unknown future impact that COVID-19 might have on the real estate market and the difficulty in differentiating between short term impacts and long-term structural changes, we recommend that you keep the valuation(s) contained within this report under frequent review.

CURRENCY

Unless otherwise stated, all monetary amounts are stated in Renminbi (“RMB”), the official currency of the PRC.

We enclose herewith our summary of values and valuation certificates.

Yours faithfully,
For and on behalf of
